### Reading for Meaning

#### I

When I was a girl of about twelve, I used to stay in a village in north Karnataka with my grandparents. Those days, the transport system was not very good, so we used to get the morning paper only in the afternoon. The weekly magazine used to come one day late. All of us would wait eagerly for the bus, which used to come with the papers, weekly magazines and the post.

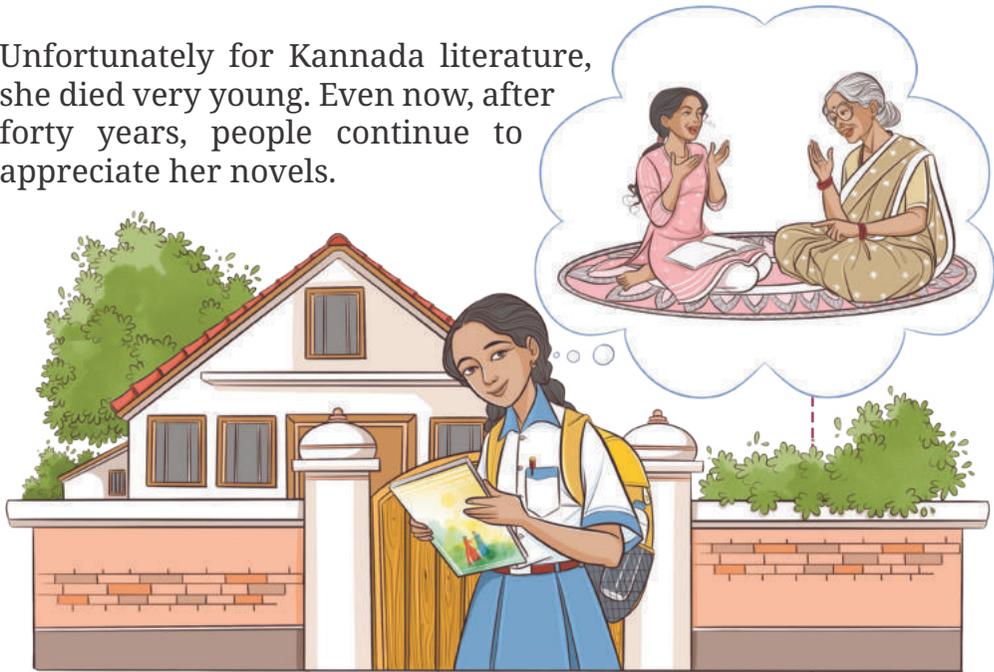

At that time, Triveni was a very popular writer in the Kannada language. She was a wonderful writer. Her style was easy to read and very convincing. Her stories usually dealt with complex psychological problems in the lives of ordinary people and were always very interesting.

Kaveri

Unfortunately for Kannada literature, she died very young. Even now, after forty years, people continue to appreciate her novels.

One of her novels, called *Kashi Yatre*, was appearing as a serial in the Kannada weekly *Karmaveera* then. It is the story of an old lady and her **ardent** desire to go to Kashi or Varanasi. Most Hindus believe that going to Kashi and worshipping Lord Vishweshwara is the ultimate *punya*. This old lady also believed in this, and her struggle to go there was described in that novel. In the story there was also a young orphan girl who falls in love but there was no money for the wedding. In the end, the old lady gives away all her savings without going to Kashi. She says, 'The happiness of this orphan girl is more important than worshipping Lord Vishweshwara at Kashi.'

My grandmother, Krishtakka, never went to school so she could not read. Every Wednesday the magazine would come and I would read the next episode of this story to her. During that time she would forget all her work and listen with the

greatest concentration. Later, she could repeat the entire text by heart. My grandmother too never went to Kashi, and she identified herself with the novel's protagonist. So more than anybody else she was the one most interested in knowing what happened next in the story and used to insist that I read the serial out to her.

After hearing what happened next in *Kashi Yatre*, she would join her friends at the temple courtyard where we children would also gather to play hide and seek.

She would discuss the latest episode with her friends. At that time, I never understood why there was so much of debate about the story.

Once I went for a wedding with my cousins to the neighbouring village. In those days, a wedding was a great event. We children enjoyed ourselves thoroughly. We would eat and play endlessly, **savouring** the freedom because all the elders were busy. I went for a couple of days but ended up staying there for a week.

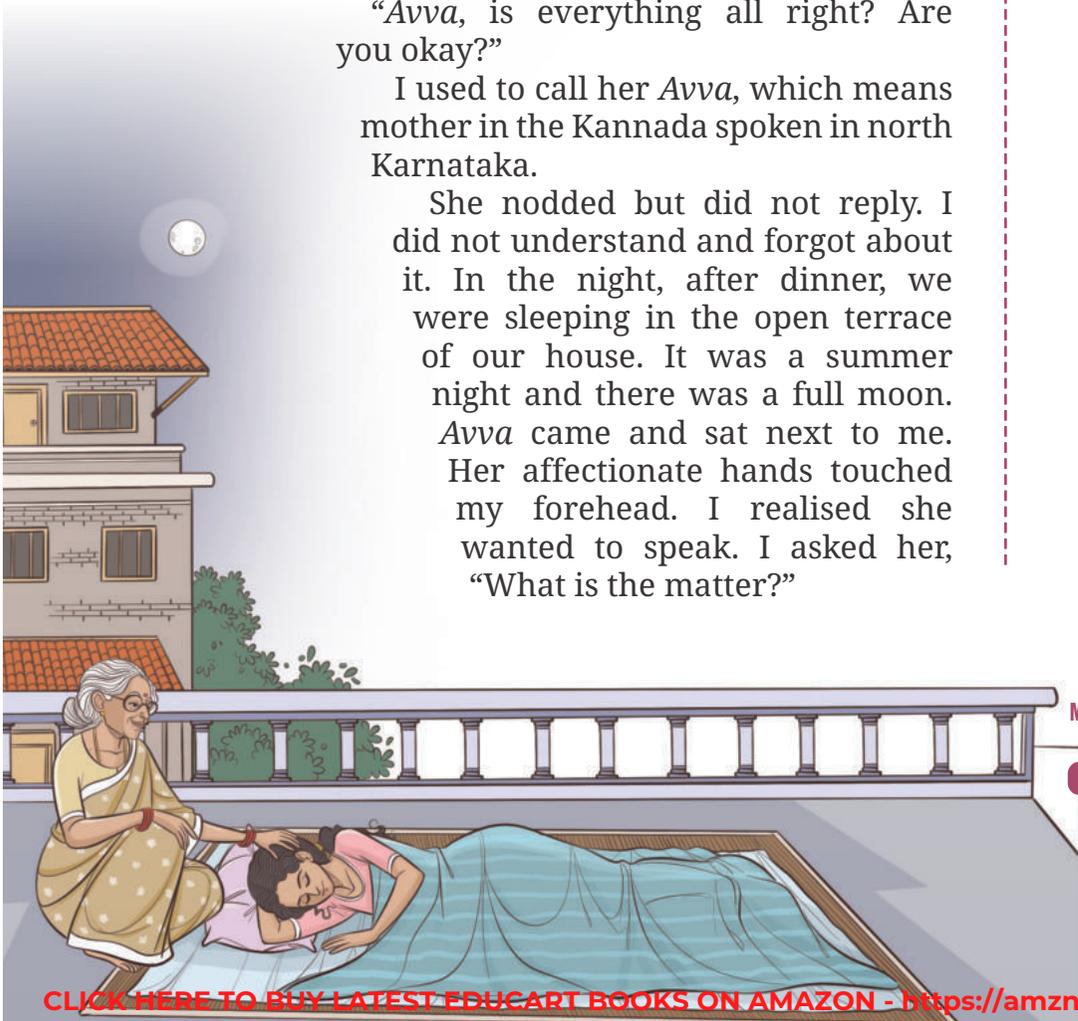

When I came back to my village, I saw my grandmother in tears. I was surprised, for I had never seen her cry even in the most difficult situations. What had happened? I was worried.

“Avva, is everything all right? Are you okay?”

I used to call her *Avva*, which means mother in the Kannada spoken in north Karnataka.

She nodded but did not reply. I did not understand and forgot about it. In the night, after dinner, we were sleeping in the open terrace of our house. It was a summer night and there was a full moon. *Avva* came and sat next to me. Her affectionate hands touched my forehead. I realised she wanted to speak. I asked her, “What is the matter?”

‘When I was a young girl, I lost my mother. There was nobody to look after and guide me. My father was a busy man and got married again. In those days people never considered education essential for girls, so I never went to school. I got married very young and had children. I became very busy. Later I had grandchildren and always felt so much happiness in cooking and feeding all of you. At times I used to regret not going to school, so I made sure that my children and grandchildren studied well..’

- II Do you think the narrator expected to see her grandmother in tears when she returned to the village? If yes, why? If no, why not?
- III How might the narrator help her grandmother to fulfil her desire to learn to read and write?

## II

I could not understand why my sixty-two-year-old grandmother was telling me, a twelve-year-old, the story of her life in the middle of the night. But I knew I loved her **immensely** and there had to be some reason why she was talking to me. I looked at her face. It was unhappy and her eyes were filled with tears. She was a good-looking lady who was usually always smiling. Even today, I cannot forget the worried expression on her face. I leaned forward and held her hand.

‘Avva, don’t cry. What is the matter? Can I help you in any way?’

‘Yes, I need your help. You know when you were away, *Karmaveera* came as usual. I opened the magazine. I saw the picture that accompanies the story of *Kashi Yatre* and I could not understand anything that was written. Many times I rubbed my hands over the pages wishing they could understand what was written. But I knew it was not possible. If only I was educated enough. I waited eagerly for you to return. I felt you would come early and read for me. I even thought of going to the village and asking you to read for me. I could

have asked somebody in this village but I was too embarrassed to do so. I felt very dependent and helpless. We are well-off, but what use is money when I cannot be independent?’

I did not know what to answer. *Avva* continued.

‘I have decided I want to learn the Kannada alphabet from tomorrow onwards. I will work very hard. I will keep Saraswati Puja day during Dassara as the deadline. That day I should be able to read a novel on my own. I want to be independent.’

I saw the determination on her face. Yet I laughed at her.

‘*Avva*, at this age of sixty-two you want to learn the alphabet? All your hair is grey, your hands are wrinkled, you wear spectacles and you work so much in the kitchen...’

Childishly I made fun of the old lady. But she just smiled.

‘For a good cause if you are determined, you can overcome any obstacle. I will work harder than anybody but I will do it. For learning there is no age bar.’

The next day onwards I started my tuition. *Avva* was a wonderful student. The amount of homework she did was amazing. She would read, repeat, write, and recite. I was her only teacher and she was my first student. Little did I know then that one day I would become a teacher in Computer Science and teach hundreds of students.

The Dassara festival came as usual. Secretly I bought *Kashi Yatre* which had been published as a novel by that time. My grandmother called me

to the puja place and made me sit down on a stool. She gave me a gift of frock material. Then she did something unusual. She bent down and touched my feet. I was surprised and **taken aback**. Elders never touch the feet of youngsters. We have always touched the feet of God, elders, and teachers. We consider that as a mark of respect. It is a great tradition but today the reverse had happened. It was not correct.

She said, 'I am touching the feet of a teacher, not my granddaughter; a teacher who taught me so well, with so much of affection that I can read any novel confidently in such a short period. Now I am independent. It is my duty to respect a teacher. Is it not written in our scriptures that a teacher should be respected, irrespective of the gender and age?'

I did return her *namaskara* to her by touching her feet and gave my gift to my first student. She opened it and read immediately the title *Kashi Yatre* by Triveni and the publisher's name. I knew then that my student had passed with flying colours.

## Vocabulary and Structures in Context

- I The expression 'hide and seek' is used in the text. This is called a binomial.

Binomials are expressions consisting of two words, usually linked by a conjunction like 'and' or 'or', that are commonly used together in a fixed order. For example: odds and ends, right or wrong.

Match the binomials in Column 1 with their meanings in Column 2. You may refer to a dictionary.

| Column 1            | Column 2  |
|---------------------|---|
| 1. sink or swim     | (i) put different things together to get a range of possibilities |
| 2. on and off       | (ii) complete part of or belong to                                |
| 3. mix and match    | (iii) choose only the best (things, people, etc.)                 |
| 4. all or nothing   | (iv) at sometime in the future                                    |
| 5. part and parcel  | (v) sometimes, occasionally                                       |
| 6. pick and choose  | (vi) increase or develop very quickly                             |
| 7. sooner or later  | (vii) succeed or fail without help                                |
| 8. leaps and bounds | (viii) something to be done completely or not at all              |

Now, use any five of the above binomials in sentences of your own.

II Read the following words from the text given in the box below.

unhappy      unusual      unfortunately  
irrespective      independent

These words are made by adding suitable prefixes ('un', 'ir', and 'in') to give an opposite or negative meaning to the words.

Now, make words by adding the suitable prefixes given in the box to the words from the text in Column 1. Write the prefixed words in Column 2. One example has been done for you.

un      im      dis  
in      mis      extra

| Column 1       | Column 2      |
|----------------|---------------|
| 1. popular     | (i) unpopular |
| 2. belief      | (ii)          |
| 3. important   | (iii)         |
| 4. respect     | (iv)          |
| 5. correct     | (v)           |
| 6. continue    | (vi)          |
| 7. understand  | (vii)         |
| 8. ordinary    | (viii)        |
| 9. interesting | (ix)          |
| 10. possible   | (x)           |

III Identify any five words with prefixes from the story and make sentences using each.

IV In the sentence, "I knew, then, that my student had passed with flying colours", the phrase "passed with flying colours" is an idiom. It means outstanding performance.

Now, match the idioms related to 'learning' given in Column 1 with their meanings in Column 2. You may refer to a dictionary.

| Column 1                 | Column 2                                  |
|--------------------------|---|
| 1. to hit the books      | (i) to memorise something                 |
| 2. to draw a blank       | (ii) to think very hard                   |
| 3. to learn the ropes    | (iii) to study seriously                  |
| 4. to rack one's brain   | (iv) to study or work late into the night |
| 5. to learn by heart     | (v) to be unable to remember              |
| 6. burn the midnight oil | (vi) to understand how to do an activity  |

Now, use these idioms in sentences of your own.

V Read the following sentences from the text and underline the verbs.

1. Secretly, I bought *Kashi Yatre* which had been published as a novel by that time.
2. I knew, then, that my student had passed with flying colours.

In sentence 1, verb 'bought' is in simple past tense. In sentence 2, verb 'had passed' is in past perfect tense.

We use **past perfect tense** to indicate two completed actions — one occurring earlier (later past) and the other more recently (recent past). The more recent action is expressed in the simple past, while the earlier action takes the past perfect tense.

3. **The Early Literacy Project (ELP)** is an integrated, intensive, and culturally sensitive early literacy-training programme. The ELP primarily targets out-of-school children and youth as well as under-achieving school-going children (in Grades 1, 2, and 3) attending rural government primary schools. Most of the targeted children come from the most marginalised communities (such as migrants and ethnic minorities), with high illiteracy rates. In addition, they also have different socio-cultural, linguistic, and economic traditions and experiences.
4. **Cultural literacy** refers to the awareness, understanding, and appreciation of the country's diverse traditions, languages, arts, and social practices. Given India's rich cultural heritage, it involves the ability to engage meaningfully with various customs and historical narratives while navigating modern influences. Government initiatives and educational programmes through organisations like the Centre for Cultural Resources and Training (CCRT) promote cultural literacy by integrating regional languages, arts, and traditions into learning frameworks. The training programmes provide an understanding and appreciation of the philosophy, aesthetics, and beauty inherent in Indian art and culture; and focus on formulating methodologies for incorporating a cultural component in curriculum teaching. The role of culture in science and technology, housing, agriculture, sports, etc., in all aspects of development and growth is emphasised.
